## STOCK MARKET FAIRLY ACTIVE

United States Steel Securities Still Being Boosted for All They Are Worth.

FURTHER RISE IN COPPER EXPORTS OF GOLD TO PARIS HAVE LITTLE OR NO EFFECT.

New York, June 2.—A check came to the advancing tendency of prices today, although the action of the market was still maintained. The copper market was especially active, and the appearance of some important liquidation in that stock had a noticeable sympathetic effect on the whole list. Another center of strong sentiment was United States Steel, in which the recent persistent and prolonged advance gave way to a reaction of some degree. The London market, which had an upward rush to 67½ in the final hour had a strong, restorative influence on the whole list. The volatile extreme of the market was the result of the appearance of a probable culmination. Foreign securities markets seemed to wake up for the first time to the importance of the United States Steel shares on the Paris bourse and this topic was the center of the stock of this important new departure. There was lacking any detailed description of the process to the intervention of a syndicate or trust to act as a holding company in France for a block of United States Steel, and to issue against it showing its own certificates, was assumed to be the course intended, such certificates serving as the medium of operations in the Paris market, rather than the corporation shares themselves. Grain and Provisions. Chicago, June 2.—A new high mark for the July delivery was established in wheat today when the price touched 1.20½ per bushel, which is a gain of ½¢ compared with the previous high point. The market closed firm at net gains of ¼¢ to ½¢. The extreme bullishness prevailed in the wheat pit during the early part of the day, but in the final half of the session much of the close was from the low prices at the start based on a bullish foreign advance, and at the leading European grain centers and wet weather in Texas, which may delay harvesting. Toward the middle of the session offerings became more liberal. As a result of this profit-taking, the July delivery sold off from 1.19½ to 1.19½. The market closed steady with prices unchanged from the high point. The market rallied to the high point, on buying by shorts, and closed firm with July at 1.19½.

Corn scored a sharp advance early on buying of the July delivery by shorts, but lost part of the gain later because of liberal realizing sales. July delivery sold between 71½¢ and 72½¢. The market closed firm with prices up ¼¢, compared with yesterday's final figures, July being at 71½¢.

Oats were firm but the market was less buoyant than either wheat or corn. The market closed steady with prices a shade to ½¢ higher than yesterday's final figures, July being at 53½¢.
